4SO ALL WEATHER CUSHIONS

Water runs straight through the special foam, while another material, Dacron, ensures that the cushions retain their original shape. Thanks to the high-quality Olefin, the Leisure Tex cover remains soft and pleasant.

STAINLESS STEEL

Stainless steel furniture is very popular. An oxide film coating not only means that the metal will continue to gleam for years to come, but the high-quality composition makes stainless steel a good bit stronger than aluminium. This makes it possible to create furniture with innovative contours.
