SWISS GRILL INNOVATION

GAS. KETTLE.
GRILL
FUNNEL SYSTEM
unique.

ENJOYING THE MOMENT TOGETHER IS A UNIQUE EXPERIENCE

Our philosophy is clear. We do everything we can to ensure you get to spend quality time with your guests. That's why we have developed our gas kettle grills with the unique funnel system – to help you to also become a true Outdoorchef.

SWISSNESS. It's in our DNA. **OUTDOORCHEF** is a Swiss company through and through. Quality and tradition are extremely important to us. We have been developing our grills in Switzerland for almost three decades.

INNOVATION. It's what drives us. With an unwavering pioneering spirit, we are constantly setting new standards for our grill systems. **OUTDOORCHEF** products are characterised by outstanding functionality, designs with clear lines and premium materials. As grill enthusiasts themselves, our developers are constantly striving to guarantee the juiciest steaks, the most aromatic fish, the most Italian pizzas and the healthiest vegetables.

GRILLIEREN. Pure zest for life, enjoyment and creativity. We combine the passion to create something unique for our guests with the feeling of freedom and simplicity that comes with barbecuing in the open air. For us, grilling is simply the best. We want to share this passion with you.

DESIGN. The **LUGANO 570 G** is the perfect culmination of all our values in one product. Well thought-out, down to the smallest detail. Grill. At its heart is a gas kettle with a funnel system. Kitchen. Everything you need in a perfect outdoor kitchen. Design. **unique..**

Let your passion be inflamed by our unique gas kettle grills. We want to inspire you and motivate you to achieve top performance on the grill. Become an Outdoorchef too.

ROLAND TRETTL

«THEY'VE REALLY THOUGHT OF EVERYTHING!»

For many years, the restaurant kitchens of this world were Roland Trettl's empire. These days, however, this top chef regularly uses the OUTDOORCHEF gas kettle grill – along with a large helping of creativity and 100 per cent good humour. Here he reveals both the "how" and the "why".

"THE PEOPLE AT OUTDOORCHEF HAVE REALLY THOUGHT OF EVERYTHING"

"OUTDOORCHEF immediately won me over with their intelligent funnel system and even heat distribution", enthuses the well-known chef, before adding that he has already bought a second gas kettle grill for his house in Mallorca. "Barbecuing with OUTDOORCHEF is always relaxing, because it all works perfectly and reliably. The meat stays juicy and the vegetables are crisp! For this reason my next conquest could soon be the Lugano 570 G", adds the likeable South Tyrolean with a laugh. "The new product is a real designer piece with features that are, for me, on a professional level. It's a perfect fit, both for my terrace and my requirements in terms of food preparation". The Lugano 570 G is a grill kitchen that features a steakhouse burner and side cooking plate in addition to the unique benefits of the gas kettle grill, giving you even more options and limitless enjoyment.

"I WANT TO GIVE MY FRIENDS SOME ATTENTION, NOT JUST THE GRILL"

Trettl enjoys carrying out culinary experiments. As a result, he creates many new favourite recipes for himself, his family and friends on the gas kettle grill. "I like salmon

cooked on the wood plank with oranges and fennel. It's important to submerge the plank in water before placing it on the grid. The fish fillet then cooks without any effort and is wonderfully tender". Now and again he also conjures up a steak with home-made onion-peanut-balsamic dip. "You know those virtually charred steaks, which people say have the authentic barbecue flavour? To me, they just taste bitter", says Trettl with a wink. "With a gas kettle grill from OUTDOORCHEF, this is simply not possible. Thanks to the even heat distribution, meat, fish, etc. don't even need to be turned, and everything is simply cooked to perfection. Which means I have more time for my guests".

"A 3-COURSE MENU STRAIGHT FROM THE GRILL"

The equation "barbecue = meat" simply does not add up for Trettl. "A healthy, varied diet is important to me and is also possible on the grill. And this is made possible by OUTDOORCHEF. The meat is placed on the grid in the "volcano position", which requires a lot of heat from below. I prepare everything else, such as an XXL roast, a vegetable pizza or a gratin in the normal position with indirect heat. The sheer variety of the dishes I can conjure up on the gas kettle grill never ceases to amaze me. Aubergines au gratin with cherry tomatoes as a topping for the salad starter. A sirloin steak with an oriental soy sauce and chilli marinade. And for dessert, I like to serve grilled pineapple", enthuses Trettl. "Courage and trial and error are the best ingredients for delicious grilled food, and OUTDOORCHEF impresses me as a reliable companion for beginners and experts alike", says the renowned chef and epicurean.

"IT LEAVES YOU WANTING MORE"

"Of course, I sometimes start to sweat during cooking shows on TV. At home with the gas kettle grill, I can relax and devote myself to my family and friends while preparing a delicious meal. "And in future I'll have even "thicker skin" when I'm on the grill", says Trettl with a grin. "For next season, OUTDOORCHEF and I have worked together to design a stylish leather apron made from European cowhide. It's really useful and also looks great! And an additional strap means all master grillers can always keep a towel close at hand. As I said, at OUTDOORCHEF they simply think of everything".

ROLAND TRETTL Born 3 July 1971 in Bolzano, Italy

His job is also his passion, and working as a chef has taken him all over the world: After training in his home region of South Tyrol, Roland Trettl worked at both the Aubergine and the Tantris in Munich. He rose to become a star chef while employed as chef de cuisine at Ca's Puers in Mallorca. This was followed by postings around the world, including in Tokyo. From 2003 to 2013, Trettl worked at the Ikarus restaurant in Salzburg, where he has also co-managed the Spiceworld spice factory since 2018. For some time now, the chef from South Tyrol has managed to keep more than one pot on the boil: he is also a successful TV chef and author. In shows such as "Grill den Profi", "The Taste" and "First Dates – A Table For Two" he impresses and entertains viewers with his culinary knowledge and his relaxed and likeable persona. Trettl will soon appear alongside Michael Mittermeier in the new VOX show "True Story".

Away from work and the cameras, Roland Trettl lives with his family in Salzburg. When he's not looking after his son or busy on the grill or stove, he also does yoga with his wife Daniela.

FUNNEL. SYSTEM. unique.

The unique funnel system ensures **even heat distribution** inside the kettle...

...and prevents harmful flare-ups as the **burners are completely protected**.

Dripping fat does not catch fire, and is instead channelled through the funnel into the collecting tray under the kettle – so the **food to be grilled does not burn** and the **inside of the grill stays clean**.

Some of the fat and meat juices that come into contact with the funnel evaporate, giving the food to be grilled that **typically intense barbecue flavour**.

BECAUSE WE PREFER SPENDING TIME WITH OUR GUESTS INSTEAD OF JUST STANDING BY THE GRILL

Even heat distribution

- Perfectly evenly barbecued food, retaining all the juices
- No need to turn the food to be grilled
- More time for our guests

BECAUSE WE PREFER FLAVOUR INSTEAD OF BURNT FOOD

Shield for the burners

- No harmful flare-ups, no burnt food
- Reduced formation of smoke and odours
- Full barbecue flavour

BECAUSE WE PREFER GRILLING INSTEAD OF CLEANING

Collecting system

- Fat runs along the funnel to the collecting tray
- The inside of the barbecue stays clean while cooking
- Heat up, brush the grid and funnel, rinse the collecting tray – finished

- ✓ From 0 to 360 degrees in 10 minutes
- ✓ Even heat distribution
- ✓ No harmful flare-ups
- ✓ Easy cleaning

BARBECUE

Meat, fish and other savoury treats are cooked perfectly evenly, with no turning or burning – for full barbecue flavour. Meat, fish and the like all stay wonderfully juicy.

COOK

From tasty gratins to casseroles – the gas kettle replaces an entire kitchen!

BAKE

From crispy pizza to the beautiful aroma of freshly baked bread or delicious cakes – there are no limits to your creativity!

- Unique funnel system with even heat distribution
- ✓ No need to turn the food to be grilled
 - ✓ No harmful flare-ups
- Single ring-burner system, porcelain-enamelled
- ✓ From 0 to 360 degrees in 10 minutes
 - ✓ Piezo ignition
- Porcelain-enamelled kettle, funnel and barbecue grid
- ✓ Easy cleaning

THE GAS GRILL 1x1

ALWAYS READY

Whether grilling at the weekend with family and friends or during the week, our gas kettle grills are ready to use in no time and are the first choice for frequent and spontaneous barbecuing pleasure.

BEFORE FIRST USE

Make sure that the gas bottle, hose and regulator are suitable for use in the respective country. Place gas bottles weighing 8.0 kg or more beside the barbecue and secure lighter bottles on the lower shelf using the mechanism provided. Connect the regulator to the gas bottle and ensure that the regulator to the gas bottle and ensure that the thread is screwed in all the way.

LEAK TEST

Check for leaks before first use, when replacing the gas bottle and after long periods of non-use. To do this, all parts that carry gas should be painted with a soap solution. Open the gas tap on the bottle without opening the regulator on the grill. If no bubbles form, then your gas system is free from leaks.

IGNITING

Before igniting, open the lid and turn on the gas tap on the bottle. Then set the regulator to position 2 | 🔥 (gas icons). Press the ignition, close the lid and let the grill heat up for around 10 minutes. Each additional burner can be switched on by opening additional regulators and pressing the ignition again.

UNIQUE FUNNEL SYSTEM

NORMAL POSITION
INDIRECT HEAT

Unique heat circulation from below for evenly cooked food

- ✓ The optimal funnel position for most grilling applications
- ✓ Up to 360 degrees (in kettle)

VOLCANO POSITION
DIRECT HEAT

Intense heat from below

- ✓ Perfect for OUTDOORCHEF accessories if concentrated heat from below is required (griddle plate, wok, etc.)
- ✓ Up to 500 degrees (centre of grid)

TEMPERATURE CONTROL

The freely adjustable regulator allows you to set up any required temperature. Depending on the model, the gas barbecues from OUTDOORCHEF have 2–3 preset positions for easier control (1 low / 2 medium / 3 high).

TIP:

GAS CHECKLIST

- ✓ I have read the User Guide
- ✓ Gas bottle, hose and barbecue are suitable for my country
- ✓ My gas bottle is never stored in an enclosed space
- ✓ I always store and transport the gas bottle in an upright position
- ✓ I have carried out the leak test.

MORE DETAILS CAN BE FOUND AT:
 OUTDOORCHEF.COM

The base frame is available as a separate accessory
 → More details on page 47

MINICHEF 420 E

Grill surface Ø 42 cm Power 2.0 kW Cooking height 30 cm

- ✓ Easy cleaning
- 2 side shelves, removable
- ✓ Space for preparation, small footprint

CHELSEA 420 E

Grill surface Ø 42 cm Power 2.0 kW Cooking height 73 cm
 Dimensions [W×D×H] 67 × 60 × 93 cm Colour Black

E-Heat Power heating system with heat reflector, 7 heat levels

- ✓ High temperatures
- ✓ Quick heating of the grill
- Porcelain-enamelled kettle and barbecue grid, removable heating coil
- ✓ Easy cleaning

THE ELECTRIC GRILL 1x1

EASY CONNECTION

Simply connect the grill to the mains and enjoy some barbecue fun on the balcony with friends.

BEFORE BARBECUING

Make sure the heating element is inserted correctly. Before using the barbecue, inspect the cable, plug and heating element regulator for any signs of damage or wear.

SWITCHING ON

Connect the mains plug to an earthed socket outlet. Set the master switch to "I" and the temperature control to "ON". The green indicator light for Setting 1 starts to flash, indicating that the heating element is heating up.

SETTING THE HEAT

Select the required temperature level from 1 – 6 on the temperature regulator using the arrow keys ⊖ or ⊕, allow the barbecue to heat up with the lid closed until the check lamp is permanently lit, which tells you that the required temperature has been reached. Heating up takes approx. 10- 15 minutes, depending on level you have selected, the wind and the weather.

UNIFORM...

The heat reflector ensures even heat distribution and allows grilling at high temperatures of up to 300°C if required. The grill heats continuously at Level 7. Always barbecue with the lid open at this setting.

... HEAT DISTRIBUTION

Any dripping fat or marinades evaporate on the aluminium protection foil, giving the food to be grilled that typical barbecue flavour. An exchangeable aluminium protection foil protects the heat reflector against any barbecue liquid which drips out.

AFTER BARBECUING

Switch the temperature regulator to "OFF" and the master switch to "O". Always unplug the mains plug when not in use. The device is only disconnected from the mains if the mains plug has been disconnected. When unplugging, always grip the plug rather than the cable.

TIP:

GRILLING & COOKING

The electric kettle barbecue allows you to grill (with and without the lid) and cook (with the lid). Use the included support ring when cooking. Remove the barbecue grid, insert the support ring and place the gourmet set or griddle plate on top of it – and let the barbecue fun begin!

MORE DETAILS CAN BE FOUND AT:
OUTDOORCHEF.COM

KENSINGTON 570 C

Grill surface Ø 57 cm **Cooking height** 83 cm
Dimensions [W×D×H] 69 × 75 × 101 cm **Colour** Black

Charcoal system with stainless steel charcoal container and porcelain-enamelled slide funnel.

✓ Indirect and direct grilling are possible

Ventilation system with handle

✓ Optimal regulation of heat and air

Porcelain-enamelled kettle and ash catcher/juice tray, chrome barbecue grid

✓ Easy cleaning

2 large plastic wheels

✓ Easy transport

THE CHARCOAL GRILL 1x1

FIRE & FLAME FOR GLOWING EMBERS

Hot iron for some original barbecuing pleasure with charcoal.

LIGHTING

Open the lower ventilation gate. Place 2 – 3 fire starters on the lighting grate and then ignite them.

FUEL

Insert the stainless steel charcoal basket and pile the charcoal or briquettes in the centre. The quantity depends on the size of the kettle. The barbecuing fun can start after just 20 minutes - with direct or indirect barbecuing.

INDIRECT BARBECUING METHOD

INDIRECT HEAT

Our Slide funnel lets you choose between direct or indirect grilling. Indirect grilling makes the entire grill surface available. This is ideal for preparing large pieces of meat, such as chicken, leg of lamb or spare ribs.

DIRECT BARBECUING METHOD

DIRECT HEAT

With direct grilling, the food to be grilled is placed directly above the heat source and cooked at high temperatures. This creates a beautiful crust and the typical seared pattern.

TEMPERATURE CONTROL

The two ventilation gates are used to regulate the temperature. Fully opening the gates creates a strong current of air which increases the temperature. The further the ventilation slots are moved towards the closed position, the more the air current is progressively reduced – this results in a drop in temperature.

TOPPING UP THE CHARCOAL

To avoid any fall in temperature when topping up the fuel, you can prepare some burning charcoal in advance. This can be done quickly and easily using our chimney starter. You can then add the burning charcoal easily and safely thanks to the folding barbecue grid.

FLAVOURING & SMOKING

FIND OUT MORE
 → P 45

Flavouring and smoking made easy. Simply fill the juice tray with flavoured liquid, herbs or smoker chips and give the food to be grilled the desired finish.

MORE DETAILS CAN BE FOUND AT:
OUTDOORCHEF.COM

CHICKEN WINGS WITH LIME AND CORIANDER MARINADE

INGREDIENTS FOR 4 PEOPLE

500 g	chicken wings
1 bunch	fresh coriander (15 g)
1	clove of garlic
1	spring onion
1 piece	ginger (approx. 1 ½ cm)
½	lime
1 tbsp.	whole cane sugar
½ tsp.	salt

PREPARATION

Wash the coriander, shake it dry, peel off the leaves and finely chop. Peel the garlic and chop into thin slices. Wash and clean the spring onion, then cut into thin slices. Peel the ginger and finely grate. Squeeze out the lime. In a large bowl, mix the ingredients together with the sugar and salt to create a marinade. Thoroughly wash the chicken and pat dry with kitchen paper. Add the chicken wings to the bowl and rub thoroughly with the marinade. Cover the bowl with cling film and leave in the refrigerator for 12 to 24 hours.

PREHEATING

5 minutes (normal position) at the medium setting with the lid closed.

COOKING

Place the chicken wings on the preheated barbecue and grill with the lid closed for 30 minutes. Remove the chicken wings from the grill, share out on plates and serve.

ACCESSORIES

Barbecue grid, barbecue gloves, barbecue tongs

→ More delicious and creative recipe ideas can be found in the new cookbook "Barbecue for Foodies & Friends" – see page 38
Only available in german

THE BARBECUING SYSTEM USED IN OUR GAS BARBECUING STATIONS

INDIRECT HEAT

DIRECT HEAT

For indirect grilling, cooking and baking, place the food to be grilled in the middle of the grate and only ignite the two outer burners.
 For direct grilling and cooking, place the food to be grilled over the switched-on burners.

DELUXE GRILLS

Eye-catchers on any terrace. Our Deluxe grills turn your garden or terrace into a perfectly equipped outdoor kitchen that leaves nothing to be desired.

DELUXE GRILLS

LUGANO 570 G

DESIGN. GRILL. KITCHEN. *unique.*

Clean lines and a high-quality glass panel with illuminated control dials and stainless steel shelves are just a few of the features that give this grill the appearance of a modern designer kitchen.

The LUGANO 570 G is the result of Swiss innovation and the first of its kind to combine the advantages of the proven gas kettle with a powerful steakhouse burner and an additional side cooker – for maximum versatility on the grill.

THE SIDE COOKING PLATE

- ✔ Just as powerful as the one in your kitchen
- ✔ Universal pot/pan support
- ✔ Wok holder, perfect for the Barbecue Wok

THE GAS KETTLE

- ✔ From 0 to 360 degrees in 10 minutes
- ✔ Even heat distribution
- ✔ No harmful flare-ups
- ✔ Easy cleaning

THE STEAKHOUSE BURNER

- ✔ Additional direct grill surface
- ✔ For seared steaks, sausages and much more

LUGANO 570 G

PUSH BAR

The solid stainless steel push bar makes it easy to move the barbecue. The included tool holders are an additional practical bonus.

GOURMET CHECK HOLDER

A holder for the Gourmet Check, the practical temperature gauge.

INTELLIGENT BASE FRAME

Generous drawer with storage device for an additional grid and pizza stone. Plenty of storage space including fixed shelf. Enamelled drip pan system for the kettle can be operated from the front.

WOK HOLDER

Included in delivery. Perfect for the OUTDOORCHEF Barbecue Wok.

UNIVERSAL POT/PAN SUPPORT

Included in delivery. Suitable for all types of pots/pans.

XXL CHOPPING BOARD LUGANO

SWISS MADE: The included XXL Chopping Board Lugano serves both as a chopping board and a cover for the steakhouse burner. There is room to cut even the largest pieces of meat on this high-quality, antibacterial plastic chopping board. The large juice channel also ensures that all of the meat juice is caught when cutting the food so there is no spillage.

LARGE SIDE SHELF

Large, folding stainless steel shelf with cutlery holders and high load capacity.

HIGH QUALITY CONTROL UNIT

Ergonomic control dials encased in a glass console give the LUGANO 570 G the look of a high-quality designer kitchen.

SAFETY LIGHT SYSTEM (SLS)

Safety that lights up. The SLS activates as soon as the valve is opened. The light sensor automatically adjusts the LED lights' intensity to match the ambient brightness.

INTELLIGENT BASE FRAME

Soft-closing door system with integrated tool holder. Storage space for gas bottle (up to 11 kg) and accessories. Enamelled drip pan system for the steakhouse burner can be operated from the front.

DUALCHEF S 425 G

* (patent)

TUNA STEAK WITH GOMASIO SALT AND PEARS

INGREDIENTS FOR 4 PEOPLE

4	tuna steaks (approx. 500 g)
2	limes
1 tbsp.	roasted sesame oil
10 g	wasabi paste
2	pears
1 tbsp.	neutral oil (e.g. frying oil)
2 tsp.	gomasio (sesame salt from the health food shop)

PREPARATION

Take the tuna steaks out of the fridge approx. 30 minutes before barbecuing. For the dressing, squeeze out the limes. Mix the juice with the sesame oil and the wasabi paste. Wash the pears and slice them thinly using a vegetable grater, remove the seeds and stalk and share among 4 plates. Dab the tuna steaks dry and brush with oil.

PREHEATING

10 minutes (volcano position with griddle plate) at the highest setting with the lid closed.

COOKING

Grill on the preheated griddle plate with the lid closed for 2 minutes on each side. Place the grilled tuna steaks on the plates, drizzle with the dressing and sprinkle with the gomasio.

ACCESSORIES

Griddle plate, barbecue gloves, barbecue tongs

→ More delicious and creative recipe ideas can be found in the new cookbook "Barbecue for Foodies & Friends" – see page 38

Recipes for the gas kettle barbecue
GAS

The GRILLCHEF 4 SEASONS recipe book will turn you into an accomplished gas kettle grill chef in no time at all. As well as simple and sophisticated recipes in tune with the changing seasons, it includes lots of handy barbecue tips and hints. Enjoy the adventure and whet your appetite with some seasonal cooking.

CAST IRON COOKING GRID 420, 480, 570

Enamelled cast iron, available in three sizes
For the following barbecues: 420, 480, 570
GAS, CHARCOAL

CAST IRON COOKING GRID DIAMOND

The cast iron cooking grid Diamond ensures the perfect seared pattern on your food. Cast iron stores a lot of heat, which is then transferred to the food to be grilled. In addition, small parts do not fall through the grid.

RTG GRIDDLE PLATE

Enamelled cast iron
For the following barbecues:
AUSTRALIA 415 G, 425 G, 455 G

GAS, CHARCOAL

DUTCH OVEN

This Dutch oven is a true all-rounder. From frying to roasting, braising, baking or steaming, it makes easy work of all kinds of dishes, with flavours that rekindle childhood memories of grandma's home-cooked casseroles. The cast iron pot can be used in the gas kettle, on the side cooking plate of our grill stations or on our charcoal barbecues.

FLAVOURING PAN

Enamelled cast iron
For the following barbecues:

GAS, CHARCOAL, ELECTRIC

FLAVOURING PAN

This amazing little cast iron pan is ideal for preparing all kinds of gratins, as well as sweet dishes such as a tarte tatin. To aromatise larger joints of meat, fill the flavouring pan with your chosen liquid (e.g. wine or beer), add some fresh herbs and place it in the funnel.

TAJINE BARBECUE

2 in 1: large cast iron pan with tagine function. Whether you fancy a classic oriental stew such as lamb Ras el-Hanout with almonds and prunes, or rather prefer a nice French gratin dauphinois – both can be easily prepared in the new OUTDOORCHEF Barbecue Tajine.

HALF-MOON COOKING SET

Porcelain-enamelled steel
For the following barbecues:
480, 570 · AUSTRALIA
GAS, CHARCOAL

HALF-MOON COOKING SET

The two half-moon shaped porcelain-enamelled gourmet dishes can be used separately or together. Whether braising juicy roasts, cooking gratins of potatoes or vegetables, or even steaming a salmon fillet on a bed of vegetables – the Half-Moon Cooking Set makes it child's play.

TIP:

1. Place the wood planks in lukewarm water for at least 60 minutes. For even more flavour add some beer, wine, whiskey or rum to the water.

2. Place the food to be grilled in the middle of the plank and directly above the heat source. Close the barbecue lid and cook/barbecue using reduced heat.

3. After use, allow the wood planks to cool completely and clean with water and a brush. Leave to dry completely.

CHEF CLEANER

The new Chef Cleaner is an ultimate power foam for cleaning all the components inside the barbecue. The special spray head transforms the liquid into an adhesive foam. The foam dissolves after 10 minutes, indicating that you can start cleaning. The new Chef Cleaner is noticeably stronger than conventional barbecue cleaners and makes tedious cleaning a lot easier after the barbecue fun.

COVERS

A suitable cover made from hard-wearing and water-resistant synthetic fabric (PU) is available for each model. It will not only protect your OUTDOORCHEF from rain and snow, but also from dust, pollen and UV rays. The new barbecue covers are colour-fast and non-fade, and thanks to the draw cord and rustproof eyelets, they stay right where they should be even in stormy weather — on the barbecue.
